Dear Community Members,

This season, as spring brings renewal and hope, we're reminded of the power of community—and what's possible when we come together with compassion and determination.

At the We Care Program in Turlock, we remain steadfast in our mission to support individuals experiencing homelessness by helping them secure stable housing and meaningful employment. With your continued support, over the past 12 months, we have helped 17 individuals in securing jobs and 9 individuals in getting off the street. We remain committed to help the unhoused in taking steps toward a better future—one filled with dignity, opportunity, and hope.

We're excited to share that under the leadership of our new Director, Corey Mai, we have made significant progress in expanding partnerships and improving the way we serve our community. Corey has been working tirelessly to reduce operational costs, build strong relationships with local property managers, and foster greater collaboration with city and county agencies. Her leadership is helping to create a stronger, more coordinated response to homelessness in Turlock.

We also recognize that the issue of homelessness continues to spark a range of emotions. While seeking answers to reduce homelessness in our community can be challenging, one thing remains clear: our unhoused neighbors need help—and that's something we can all rally around.

We Care Program seeks to empower our guests to become more self-sufficient. Your donation helps us meet our goals to:

- Provide shelter and safety to those in crisis
- Connect individuals with job opportunities and training
- Move more people into permanent housing
- Build a collaborative network of support across the community

Whether you have supported us before or are considering giving for the first time, please know that your gift—no matter the size—makes a profound impact.

Let's keep showing up for our neighbors. Let's keep building solutions. Let's keep caring.

With gratitude,

We Care Program - Turlock, Board of Directors
